IN THE SPECIFICATION:

The specification as amended below with replacement paragraphs shows added text with underlining and deleted text with ~~strikethrough~~.

Please REPLACE the Title with the following:

IMAGE PHOTOGRAPHING APPARATUS HAVING MULTIPLE PHOTOGRAPHIC MODES

Please REPLACE paragraph 24 with the following paragraph:

Meanwhile, the signals processed in each of the image processing sections 61, 63 are selectively adopted in a MUX 65 and stored in the flash memory 73. The MUX 65 is controlled by the control unit 50, so that the MUX 65 may be driven to select the signals transferred from the camera unit 20 to ~~correspond~~correspond to the selected photographic mode. The MUX 65 may also be controlled in such a manner that it remains in the OFF state in cooperation with the selector of the mode sensing unit 40 when the first camera section 23 is turned OFF, while it remains in the ON state when the first camera section 23 is turned OFF.
